

FALL 2016

DES INV 190-1 / ME 292B:

REIMAGINING MOBILITY

Explore + imagine + design mobility futures.

Dive into 21st-century transportation in *Reimagining Mobility*. In this course, you'll explore emerging trends in mobility, focusing on problem-finding and the early stages of the design process. You'll envision meaningful interactions between people and new transportation modalities, from car sharing to automation. By the end of the semester, you'll work in a team to build on your ideas and produce a concrete prototype.

Course details:

- / taught by an expert design instructor from the Jacobs Institute
- / input, mentorship, and guest speakers from Ford Research and Innovation Center and Berkeley's Institute of Transportation Studies
- / open to advanced undergraduates and master's students
- / students from diverse disciplines encouraged to join the course

Mondays, 1-4pm | Instructor: Rob Hennigar | 3 units

Class number: 34151 (DES INV), 34274 (ME)

Enrollment is by application: find the application on the Schedule of Classes.
