541,000 Upper Limb Amputees

60% *Finger Amputees*

6 to 8 *Months*

>8000 *USD*

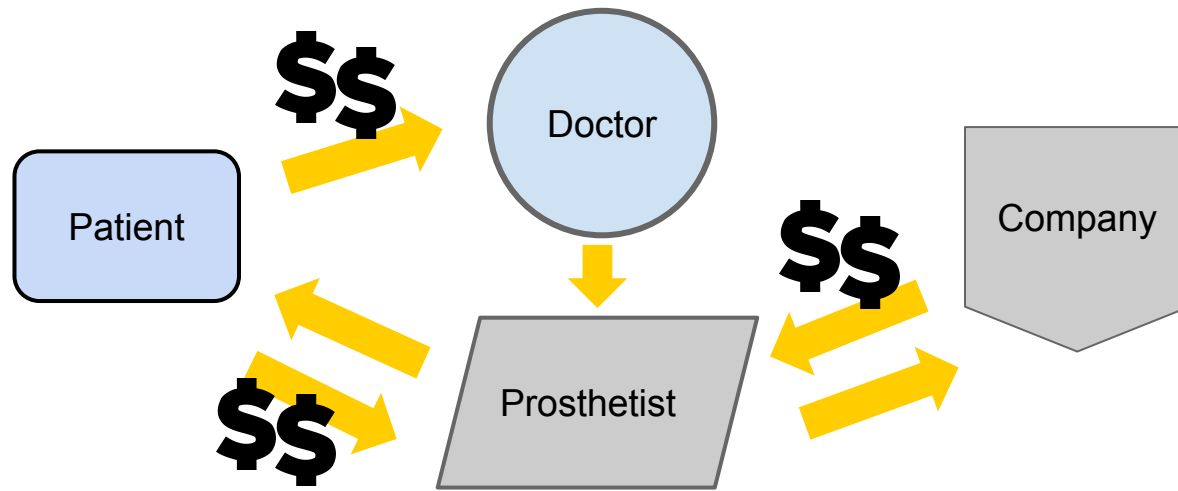

Problem Statement

HMW: Provide an easy-to-design prosthetic finger to reduce the effort required of an amputee in the fitting process

Target Audience

*Finger amputees in the United States
who lost a single finger as a young or
middle-aged working adult.*

Naked Prosthetics

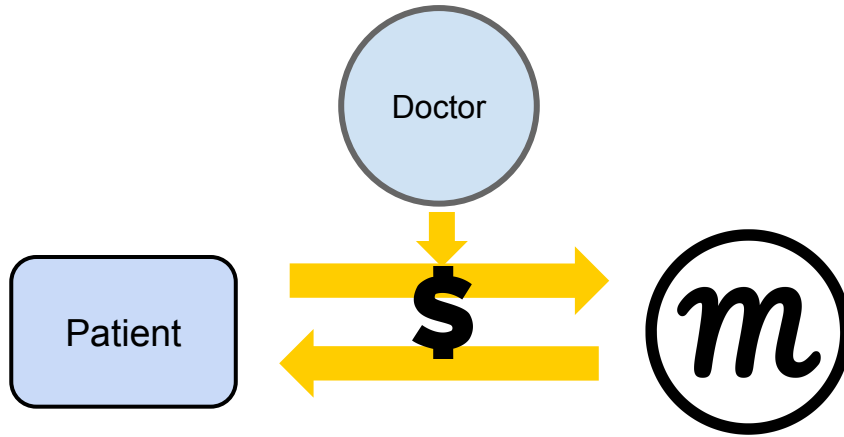

X finger

Partial hand solutions

“Current methods are too expensive and inefficient!”

“We aim to eliminate the inefficiencies and bulk of the cost.”

One plus Two

1 Business Model

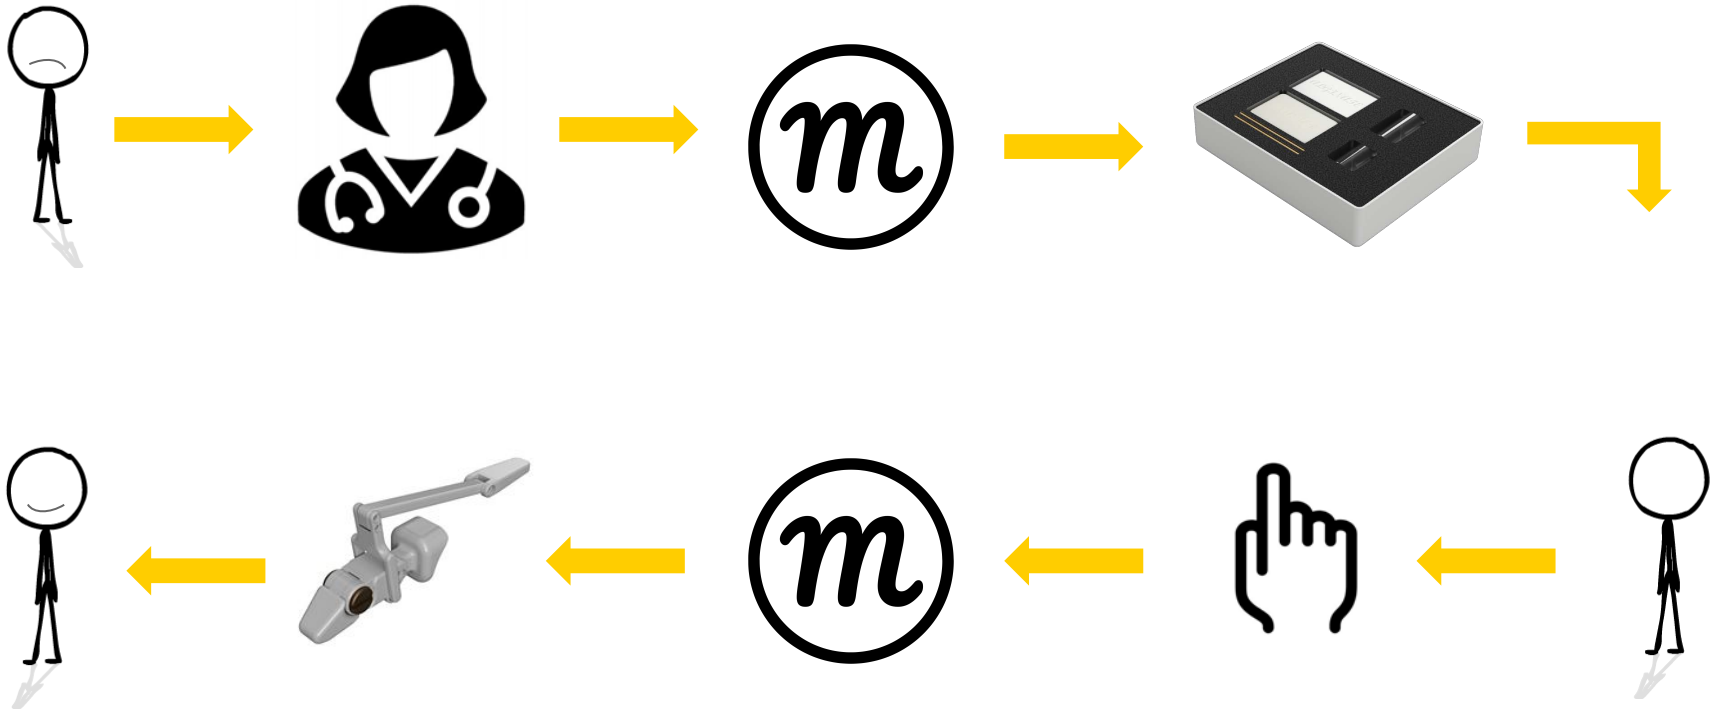

+

2 Products

The Business Model

The journey from the company to the patient

The Business Model
