

Want to reimagine the future of slums?

1/3 of humanity will soon live in slums. With virtually no good design. 1 in 3.

REIMAGINING SLUMS COURSE

We need a Slums 2.0 model, one that is a better fit for this century. This cross-disciplinary course is a collaborative pilot focused on reimagining slums. You will learn about slums, the design process, teaming and communications skills. And then we'll give you real-world design challenges of slums to crack. Redesign governance, sanitation, and education in slums. Come design the future of slums with us.

@Jacobs Hall | Institute for Design Innovation

Mondays | 12:30-2:30pm | Spring 2016 | DI190 / ME292C

Upper-division undergraduate and graduate students from all disciplines
